NIC #00584-85  
1 February 1985

MEMORANDUM FOR: Director of Soviet Analysis

FROM: [REDACTED]

National Intelligence Officer for Warning

SUBJECT: Warsaw Pact Early Warning Indicator Project

6 FEB 1985

1. NIO/Warning has prepared a selected set of indicators for use by our Chiefs of Station in [REDACTED] to emphasize greater early warning cooperation with intelligence services.

2. The listing is not intended to be a comprehensive listing of areas vulnerable to human collection but is a starting point for expanded bilateral cooperation.

3. This project has already been discussed with members of the Defense Industries Division but has not been discussed with members of your Forces Division.

4. We would appreciate your review of the list for significant additions or major failings. Concurrently, DIA is receiving the NOFORN sections for appropriate release authority. After that process is complete--approximately one week to ten days--it is our intention to pouch the listings to our Chiefs of Station.
